Comments Regarding Pricing Strategy		
<p>Local market was increasing and then had initially stabilized due buyer and seller hesitation due to COVID 19. Market has since resumed activity prior to pre- shutdown levels. Prior to the pandemic, the market had been quite active. REO market is stable. All comparables selected offer good overall similarities to the subject and are representative of both the subjects neighborhood and near competing neighborhoods of similar age, size and style homes offering similar buyer appeal. Subjects final price is based on both the active and sold comparables as this is an increasing market. Subjects final pricing represents a sales price with normal marketing times and based on the most similar and proximate comps in this report.</p>
