Comments Regarding Pricing Strategy		
<p>The final price point was determined by near even comparison between the current and sold listings. The price variance was relatively modest while there appears to be a slight upward trend in values. Due to the fact that values are improving and most of the sold listings days on the market are within 15 to 20 days of what's typical for this area, the final price will reflect a more aggressive value. The final valuation is for a fair market price set to encourage a typical marketing period for this area.</p>
