Comments Regarding Pricing Strategy		
<p>The subject details are taken from tax records and in average marketable condition. Within 1 mile, +/- 20 % GLA and 6 months closing date, there was limited comparable which was similar to the subject in terms of condition, Lot, bath, garage and hence the attributes had to be expanded beyond tolerance. Most of the comparables in the neighborhood with similar attributes had undergone various upgrades and hence properties with minor updates are considered average in condition. Property is located in proximity to railroads, highways along with Commercial establishments, schools, parks, golf courses, and places of worship nearby. Comparable shares values defining qualities with the subject in regard to age, GLA, and location so the subject location characteristics don't affect its marketability. Since there were limited comparables that were similar to the subject attributes within the same side of the busy road, I was forced to select comparables crossing a major road and it will not affect the subject marketability. In delivering the final valuation, the most weight has been placed on CS1 and CL3 which are similar in GLA, condition. To maximize the accuracy of initial valuation, we have elected to increase the time span of closed sales past the favorable 3-month window to find comparable that required the fewest net adjustment. There was no mailbox number. Address was verified by surrounding house numbers.</p>
