Comments Regarding Pricing Strategy		
<p>The value as of today is \$203000, with typical marketing time at 46 days. The subject property is located in a neighborhood with easy access to the highway. Most yards and home exteriors appear to be in good order with only minor maintenance neglect. The area has above average market demand. The property is located in an area of equal value homes; it conforms to other homes in regard to Proximity, GLA, Age, Condition, View, Style, Lot, Beds, & Baths. The neighborhood has a shortage of homes on the market as there are more homes which have sold than listed in the past 6 months. Naturally, this shortage has enabled prices to rise and this trend is expected to continue over the next 6 months. The subject was strategically priced mid-market because all homes were from the same/similar subdivisions, and were of similar GLA, age, style, and lot utility. No extraordinary characteristics were noted to price low or high. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was necessary to utilize comps with the following variances: GLA : 27; Age : -16/+0 years; Sale Dates : 2; Proximity : 3; Month Supply : 1. GLA criteria was expanded due to having few similar comparables in the area that were within 20% variance of the subject property. Year built criteria was expanded due to having few similar comparables in the area that were within 10 years of the subject property. Due to limited comparables it is necessary to include those properties that may exceed the lot size variance. The comps however are valuable and bracket the subject well in terms of distance, condition, size and age. It was necessary to expand proximity to obtain similar comps and to bracket subject allowable price threshold based on the current market trend.</p>		

Clear Capital Quality Assurance Comments Addendum
