Comments Regarding Pricing Strategy		
<p>The subject property is a single family home, which is in overall average condition on the exterior. The subject's location was confirmed via Parcel Map. The distance searched for similar comps was 1.25 Miles and the time searched was 12 Months time. Comps were searched for slightly beyond 1 Mile to locate properties similar in GLA and other property attributes. Comps were selected from similar and competing areas. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for comps was +/- 20% of the subject's GLA. The subject is in average exterior condition and emphasis was placed on using comps which were also in average condition. However, this market area is saturated with comps which have updating and remodeling. In addition, there are limited comps which support the subject's GLA and other attributes. Therefore, it was necessary to use two superior condition comps within this report. This factor was considered and the superior condition comps received the least weight on the subject's final price. Market conditions and property values are improving within this area due to very strong demand and limited inventory of homes for sale. The subject's bedroom and bathroom counts have been estimated for this report as they are not available in Tax or Public Records. The subject property did not appear to have any major negative site influences. The value variance between comps is larger than typical, but was necessary due to limited similar comps in this area. The subject's price has been bracketed within the range of comp values with the most weight on Sale 1. Comps within the subject's market area support a price which is higher than the subject's recent sales price. The subject property appears to be occupied as the window blinds are raised, and there are notices in the front window of the home. The notices are not clearly readable. The subject's lot size could not be bracketed by the sold comps, but is bracketed by the combined sold and list comps. The sold comps were adjusted for this difference.</p>
