| Comments Regarding Pricing Strategy | | |
| <p>The subject property is a single family home, which is in overall good condition on the exterior. In addition, the subject's recent MLS Listing (attached) shows that the subject is in good interior and exterior condition, and the interior has been extensively remodeled. Therefore, all comps used in this report are in good condition with updating and remodeling, like the subject property. The distance searched for similar comps was 1 Mile and the time searched was 6 Months time. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for comps was +/- 20% of the subject's GLA. Market conditions and property values are improving within this area due to very strong demand and limited inventory of homes for sale. Comps within the subject's market area support a price which is higher than the subject's last listed price, but is strongly supported. List 1 is directly next door to the subject, and very similar in GLA and condition. The subject property is located within 1 Mile of a major roadway. This will not have an impact on the subject's marketability as the subject is not directly adjacent to the major roadway. The subject's bedroom count could not be bracketed by the sold comps, but is bracketed by the listing comps. All of the sold comps have been adjusted for this difference. The subject's price has been bracketed within the range of comp values, while considering the values of all of the comps used in this report.</p> | | |
