### Sales Comparison Analysis

#### DESCRIPTION OF COMPARABLE SEARCH CRITERIA

SEARCH PARAMETERS: For our analysis, I have used the following search parameters: Source is CRMLS; Property Type is 'Residential' Standard Status is one of 'Active', 'Act Under Contract', 'Pending'; Standard Status is 'Closed'; Contract Status Change Date is 01/11/2021 to 05/15/2020; Property Sub Type is 'Single Family Residence'; Special Listing Conditions is 'Standard'; Latitude, Longitude is within 1.00 mi of 1348 E Somerset Pl, City is 'Long Beach'; Living Area is 1500 to 2250. The comps in our report are located in the same neighborhood.

#### EXPLANATION OF ADJUSTMENTS

ADJUSTMENTS: I have inspected the interior of all comps by MLS photos or Realtor comments for the basis of our market grid adjustments. I have made the following adjustments based on a separate paired analysis and our experience in the local market: I have used the factors of \$5 for lot size difference of 1,000 sq ft or more, \$75 for GLA difference, \$5,000 for bath count, \$5,000 for central air, \$30,000 for pool. These adjustments reflect a normal market reaction for these amenities. I have made adjustments on custom line 2 to reflect the market reaction for the condition of the subject's kitchen and bathrooms, based on paired analysis between the comps in our report. I have made a separate paired analysis for any actual location adjustments shown on this report from our experience in this market area.

#### ADDITIONAL COMMENTS (OPTIONAL)

The effective date of this assignment is subsequent to emergency declarations regarding the coronavirus (Covid-19) in March 2020. The scope of this appraisal report does not include the measurement of any effect of these events on the real estate market or on the value of the subject property. Therefore, the value opinion and other conclusions expressed in this report are subject to the extraordinary assumption that these events have had no effect on the marketability or the market value of the subject property. The client and intended users of this appraisal are cautioned that if this extraordinary assumption is incorrect, the value opinion and other conclusions expressed in this report could be significantly different.

### Reconciliation Summary

Comp 1 was selected as recently sold comp from the close neighborhood. Comp 2 [3951 Walnut Ave] was selected for its similar GLA and was given primary weight. Comp 3 was selected for its similar overall condition. Comp 4 was selected for its similar bath count to our subject. Similar GLA homes in this neighborhood are selling in a wide range of \$700-\$1,050k+/-, mostly due to their condition and quality of the upgrades. The subject appears to be in typical condition, hence I have placed the estimated market value toward the mid range of the values in the neighborhood.

### Subject Comments (Site, Condition, Quality)

From Page 1

The PCI report states that there are no negative externalities and the subject is not in flight path of airport. This is in error. The subject is less than a mile from Long Beach Airport, near the flight path of commercial aircraft. The location of the subject therefore appears to have an adverse impact on marketability. The comps in our report are located in similar very close proximity to the airport and the commercial planes flight path and are best suited to reflect the impact of the proximity to the airport on the marketability of the subject. Per the PCI report, the subject appears to be in good condition with no deferred maintenance noted. I concur with the condition description

### Neighborhood and Market

From Page 7

The subject neighborhood is in close proximity to Long Beach Airport. The subject is located in a well-established neighborhood and near all public services and easy access to local freeway. The subject is within 1-mile radius of schools, shopping centers, parks, restaurants, banks, and medical offices. The real estate market appears to be in continuous increasing trend with shortage of available properties noted. Based on paired analysis and a separate market trend analysis, I have made time adjustments of 2% for comp 4.

### Analysis of Prior Sales & Listings

From Page 6

No prior sales/transfers within the past 36 months were noted. No MLS listings were found per my search of CRMLS.

### Highest and Best Use Additional Comments

The subject is located within an established tract of single family residences. The highest and best use is its current use as a single family residence.

## Scope of Work

Provided by  
Appraiser

### REPORT FORMAT:

This report has been prepared under the following USPAP reporting option: Appraisal Report. The content of this Appraisal Report has been supplemented with additional information and data about the subject property and its market, as well as the data, reasoning, and analyses that were used in the valuation process. The cost approach and income approach have been omitted from this report as they are not necessary to produce credible assignment results. If the appraiser determines that credible assignment results cannot be provided without employing either the cost or income approaches to value, this assignment will be rejected by the appraiser or the scope expanded to the extent required to produce credible assignment results in compliance with USPAP. Unless otherwise stated, the appraiser has incorporated only the Sales Comparison Approach.

### PURPOSE OF THE ASSIGNMENT:

The purpose of this Appraisal Report is to determine an and the opinion of the market value for the subject property, at which it could sell in a typical exposure time for the area, considering current market conditions, the condition of the subject and necessary repairs.

### SCOPE OF WORK:

This Appraisal Report was performed by a Licensed or Certified Real Estate Appraiser to estimate the market value of the subject property being evaluated as of the effective date of value stated. Clear Capital has provided the appraiser with additional preliminary data resources for consideration in the analysis, which may include: Property Inspection, MLS records, and Public Records. Although the appraiser did not physically inspect the subject property, at a minimum the appraiser has considered the results of a recent visual property inspection completed by Evan Prather, a licensed real estate agent having completed the above referenced Property Inspection.

### AT A MINIMUM, THE APPRAISER HAS:

1. considered the additional data resources provided by Clear Capital as a resource for subject property and market data/characteristics;
2. consulted and considered supplemental market data from readily available data sources;
3. estimated the market value of the subject as of the effective date of this report restricting the desktop analysis to a sales comparison approach unless this was insufficient for credible assignment results.

### THE APPRAISER HAS NOT:

1. Physically inspected the subject property or any of the comparables contained within the original report(s) or comparables presented in support of the appraiser's value opinion(s).

### INTENDED USE:

The intended use of this Appraisal Report is for the lender/client to evaluate the property that is the subject of this appraisal for home equity line of credit, loan funding due diligence, loan sale, loan modification or loan securitization purposes.

### INTENDED USER:

The intended user of this appraisal report is the lender/client.

### DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interest;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
