Comments Regarding Pricing Strategy		
<p>The final price point was determined by near even comparison between the current and sold listings. The variance in values was relatively modest while there appears to be a slight upward trend. Due to the fact that values are improving and most of the sold listings days on the market are above what's typical for this area, the final valuation will reflect a less aggressive value. The final valuation is for a fair market value set to encourage a typical marketing period for this area.</p>
