Sales Comparison Analysis

DESCRIPTION OF COMPARABLE SEARCH CRITERIA

A thorough search of the market was conducted to find the most recent and similar sales to match the subject property. Due to the subject's uniqueness, there were no exact model matches available. Dated sales over 6 months were necessary to consider for full compatibility. Time adjustments do not appear to be necessary in this market. Distance over .5 mile was expanded to find the best available sales that are similar to the subject. The appraiser attempted to obtain an adequate amount of information in the normal course of business regarding the subject and comparable properties. Some of the standardized responses require by the UAD, especially those in which the appraiser has NOT had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data than is factually correct or typical in the normal course of business. Examples include condition and quality ratings as well as comparable sales and listing data. The appraiser makes no representations, guarantees or warranties, express or implied, regarding building materials, their fitness, quality, condition or remaining economic life. Subject & Comparable data was generally obtained from the third-party sources including but not limited to the broker inspection report, local MLS, County Assessor, realtors, online resources and additional public data sources. Consequently, this information should be considered an "estimate" unless otherwise noted by the appraiser. Adjustments for variance in GLA were extracted from the market (pair analysis) at approximately \$65 per SF (for GLA exceeding 100 SF variance, per market analysis). Differences for architectural design/style are not supported per market. All selected comparables were based on the standard guideline and were verified through the Multiple Listing Services (MLS) as Arms-Length-Transactions. All Comps surveyed are from the same demand area and are located within the subject's boundary. All adjustments were made where appropriate. All Comps were given most weight due to their sale and like similarity.

EXPLANATION OF ADJUSTMENTS

The adjustments were based on market reaction and derived by paired sales analysis. The methodology used to determine the specific amount of each adjustment is based on paired sales analysis within the subject's market and market reaction to several of the comps in the neighborhood. The condition of each comparable was verified through a review of MLS commentary and interior MLS photos, if available. Even if the condition rating is the same as the subject, a condition adjustment may still be warranted due to slight upgrades or lack thereof, based on MLS photos and agent commentary. The amount of the condition adjustment was based upon match pairs with remaining comps, if needed. The dissimilarities that have a 0 indicated in the adjustment column means the appraiser has acknowledged the difference; however, the market does not support any adjustment. GLA adjustments were given to sales at \$65 per SF.

ADDITIONAL COMMENTS (OPTIONAL)

The contract/pending date have been provided when available. The unknown box may be checked to indicate that this information could not found or was not available. The subject and comparable information were populated from ClearProp and cross-referenced with online data sources. Any discrepancies were noted and corrected based on the most reliable data found.

Reconciliation Summary

The condition of each comparable was verified through a review of MLS commentary and interior MLS photos, if available. Weight is given to adjusted sale comparable 1 supported by comps 2 & 3. MLS data is assumed to be more reliable. The comparables presented within this analysis appear to be reliable indicators of value for the subject property. Comparables are located within the subject's market and considered reasonable purchase alternatives for the subject. The suggested value appears reasonable based upon the comparables. The subject's final value estimate is considered reasonable and supported by comp selection.

Subject Comments (Site, Condition, Quality)

From Page 1

It should be noted that this is a desk appraisal only with no visible or physical inspection of the property. Information given is relied on by MLS, if available, public records, and PCI Report completed by a third party. The review of the PCI Report and photos of the subject did not reveal any items of disrepair. Based upon inspection by the agent and photos, the subject is rated in C4 condition. The agent cited no observable repairs needed.

Neighborhood and Market

From Page 6

Market conditions are based on a review of sales data, market trends, and marketing times in competitive properties and markets. The market for single-unit residence properties is in balance at this time. Conventional financing appears to be stable; no special loan discounts, buy-downs or special financing is evident at this time. Interest rates are still attractive. Home values are in a stabilizing trend.

Analysis of Prior Sales & Listings

From Page 5

The subject is under contract and a pending sale as noted above. The contract was not provided for review. The purpose of this report was not disclosed to this appraiser. Public records did not reveal any other prior sales or transfers of the subject property for the three years prior to the effective date of this appraisal.

Highest and Best Use Additional Comments

The subject is a legally permissible use based on its current zoning. Also, the lot size, shape and land-to-building ratio allow the present structure and indicate a good utilization of the improvements. Based on current market conditions, the existing structure as an SFR is financially feasible and maximal productive use. The highest and best use, as if vacant, would be to construct a Single-Family Residence.

DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interest;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

APPRAISER'S CERTIFICATION COMMENTS

CORONAVIRUS - COVID-19 NATIONAL EMERGENCY: The global outbreak of a "novel coronavirus" known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO) on March 11, 2020. The Federal Government has declared a National Emergency and the Governor of California has declared a State of Emergency for the state of California, regarding the ongoing Coronavirus - COVID-19 outbreak. As of the Effective Date of this appraisal and the date of this appraisal report it is too soon to evaluate the impact, if any, that the Coronavirus - COVID-19 outbreak will have on the local and regional real estate markets in which the Subject Property is located. The appraiser is completing the market analysis, however regarding the COVID-19 outbreak on the local market, there is limited data to support any market conditions adjustment relative to this event currently. As a result, no adjustment is made to reflect any change in the market conditions for the subject property on the effective date of value. The reader is cautioned and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of this event, or any event, subsequent to the effective date of the appraisal. The Client and the Intended Users are advised to monitor market conditions in the short, medium, and long-term periods following the Effective Date of this report. If broad market indicators show a significant change in market conditions in either the regional or local market, the Client and Intended Users are advised to order a new appraisal of the Subject Property.
