Comments Regarding Pricing Strategy		
<p>The subject is a SFR Town House, contains 3 beds and 4 baths, subject details taken from Tax Record. Subject in an average condition. The subject is located next to highway, river, rail roads, park, retail amenities, commercial area and other facilities. Due to lack of comparables within subject same side it was necessary to exceed major boundaries such as highway, river and rail roads which won't affect it's market value. Within 1 mile +/-30% GLA, there were only 2 listings available, hence proximity was exceeded. To locate comparable which support subject attributes bed/bath count and sold date 3-6 months were exceeded. Comparables with minor updates are taken as average. In delivering final valuation, most weight has been placed on CS3 and CL3 as they are most similar to subject condition and overall structure. The value of the subject was derived by trying to stay within the range of the listed and sold comparable, and holding more weight to those comparables that were most similar overall. Recent sales and current prices of comparable listings were used in the marketplace as a guideline for determining the fair market value of the subject property.</p>
