Comments Regarding Pricing Strategy		
<p>Price opinion based on market data of recent sales and active listings ratios. Most consideration was given to the Sales Comparison Analysis. Comparison analysis were done by collecting market data, selecting the most appropriate comparable properties, verifying market data, applying appropriate adjustments, and reconciling the various adjusted indicators of value into a value estimate. All comps were the closest possible to subject in sq ft. and age, no better sale and active comps were found; therefore I include comps over 0.5 mile far from the subject property with inferior and superior features.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
