Comments Regarding Pricing Strategy		
<p>The values are based on the current market trend in this area. Values have increased due to economic conditions over the past months on all property in this area. In this current market value provided are based on recent sales and listings in this area taking into account the current market trends and value variance. The subject is a SFR 1 story, containing 3122sqft, 4bed/3.1bath, which was built in 1979 and is located near highway, golf course, school, retail stores and commercial area and will not affect the subject. It was necessary to use a comparable listing with a pool due to limited market activity in the subject's area. The difference in style due to the neighborhood area hard to find comparable that is similar to the subject in condition and criteria. Price range was over 25%in difference due to the neighborhood area hard to find comparable that is similar to the subject in condition and criteria. In order to include comparable to reinforce the subject's GLA and other attributes, the sold comparable search was exceeded over 3 months up to 6months time. I was not able to bracket GLA in list and lot, because most of the comparable available within 3 miles are inferior to the subject lot and inferior to the subject GLA, but have made appropriate adjustments for each difference in the physical feature. Proximity has been extended to provide the most accurate and similar comps in the subject market. In delivering final valuation, most weight has been placed on CS1 and CL2 as they are most similar to subject condition and overall structure.</p>		

Clear Capital Quality Assurance Comments Addendum
