The indicated value was derived by comparing subject to active/ sold properties, taking into consideration location and the overall similarities of the subject compared to comparable sales. Adjusting for major differences in size, style, and location. All comparables selected offer good overall similarities to the subject and are representative of both the subject's neighborhood and competing neighborhoods of similar age, size, and style homes, offering similar buyer appeal. Subjects final value represents a value with normal marketing times and is based on the most similar and proximate comps in this report. GLA adjustment was made by taking 40% of the average of the price per square foot of the sold comparables.
