Comments Regarding Pricing Strategy		
<p>The subject property is a single family home, which is in overall average condition on the exterior. The distance searched for similar comps was 1 Mile and the time searched was 12 Months time. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for comps was +/- 20% of the subject's GLA. The subject is in average exterior condition and emphasis was placed on using comps which were also in average condition. However, this market area is saturated with comps which have updating and remodeling. In addition, there are limited comps which support the subject's GLA and other attributes. Therefore, it was necessary to use one superior condition comp within this report. This factor was considered and the superior condition comps received the least weight on the subject's final price. Market conditions and property values are improving within this area due to very strong demand and limited inventory of homes for sale. Comps within the subject's market area support a price which is higher than the subject's last sales price. The subject property is located within 1 Mile of a major roadway. This will not have an impact on the subject's marketability as the subject is not directly adjacent to the major roadway.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
