<b>Comments Regarding Pricing Strategy</b>		
<p>Pricing suggestion came about from analyzing the most current comps which are located as close to subject as possible and are as close as feasible in square footage, location , condition, style and acreage with subject property. I have searched a distance up to 0.5 mile, GLA +/- 20% sqft, lot size 30% +/- sq ft, age 20% +/- yrs and up to 3 months in time. This was expanded to up to 12 months in time , proximity upto 1 miles due to lack of similar homes. Current price range reflects the current market condition available in the neighborhood. It was also necessary to use comps with variances in condition , bed/bath count , year built , lot size , and GLA and for that we have provided necessary adjustments Subject is located near highway,railway line,park,school,commercial buildings however it doesnot have any impact on the value. Due to lack of comps in the subject's same side it was necessary to exceed major boundaries such as rivers, rail road tracks, major roads, highways, freeways, etc.Sold comp 1 and Listing comp 1 was the most weighted comps in Location and gla.</p>
