Comments Regarding Pricing Strategy		
Searched subdivision and zip code for properties similar to subject in age, condition, beds, baths, and square footage. Keeping proximity heavily weighted criteria. Based value on subject in average condition as a fair market property to sell in a normal marketing period. As Is with no seller concessions. Based value on active and solds and adjusted for differences. Took active and solds into consideration for final value conclusion. Due to the limited inventory of PUD properties expanded distance for AC1, AC2, and SC1. Similar neighborhoods with similar values. These are currently the best comps available for subject property. The adjustments are sufficient to account for differences between subject and comps		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
