Comments Regarding Pricing Strategy

A limited number of comparable active listings were available within a 1 mile radius even after expanding the search criteria as follows: SqFt Total is 1300 to 2100 and Yr Built is 1965 to 1980. As a result, it was necessary to expand the search radius beyond 1 mile in order to return the needed number of results. Many of the comparable listings in this area have either gone through recent updates or a complete remodel. This has created a wider than typical range in pricing. Values have been adjusted as appropriate based on differences in condition or amenities. The value conclusion is based on a careful weighting of both the sold and active listings with greatest weight placed on those listings closest in condition and square footage. The sold comparable listings moved off the market below what is typical for this area which allowed the final pricing for the subject to be set aggressively to encourage the desired marketing period for a fair market value as requested in this report.
