Listing Comments Why the comparable listing is superior or inferior to the subject.

- Listing 1** Both condition and overall quality of construction seem average for the area and comparable to the subject, but the market is sale driven, sold comps are the focus in establishing value. Similarly externally influenced. Under contract/pending sale without reductions and within overall area marketing times (covid-19 is impacting the market but situation is still evolving, cannot fully assess any impact at this time, but market is showing resilience/stable. 90 days or less is deemed adequate to generate accepted offer for subject's area and price range, or price reduction probably needed).
- Listing 2** Seems average in overall condition and quality of construction, seems comparable to the subject. Nearer a school and similarly externally influenced. Under contract/pending sale without reductions and within overall area marketing times.
- Listing 3** Condition seems average and comparable to the subject, overall quality of construction seems average and comparable to the subject. Nearer industrial property and similarly externally influenced. Under contract/pending sale without reductions and within overall area marketing times.

Reasons for Adjustments Why the comparable sale is superior or inferior to the subject.

- Sold 1** Seems comparable to the subject in condition and overall quality of construction. Nearer school and commercial and similarly externally influenced. Sold conventional financing without reductions, sold over listing price (not uncommon, driven by lack of inventory. It is difficult to know if over listing price sales will continue with the evolving covid-19 situation and the changing economy, but inventory remains limited and interest rates low, which favors the subject and the market does not seem to be weakening at this time, demand continues unabated). Adjustments; -\$8,250 GLA.
- Sold 2** Quality of construction seems average and comparable to the subject, as does the overall condition. Nearer commercial property and school and similarly externally influenced. Sold conventional financing without reductions, sold within overall area marketing times. Adjustments; -\$2,600 GLA. -\$10,000 BA x 1.
- Sold 3** Overall quality of construction seems average for the area, condition seems average and comparable to the subject. Nearer busier street and commercial property and similarly externally influenced. Sold conventional financing without reductions, sold over listing price (same reasoning as CS1).

Comments Regarding Pricing Strategy		
<p>Available inventory remains limited and interest rates very low; these factors are driving and sustaining demand. The market is sale driven, and the sold comps are used to establish the subject value; sold comps were considered up to 1 year back due to proximity concerns (the market has not been rapidly changing). The subject seems similar to all the sold comps in the report in combined characteristics, but it is not known exactly where on the spectrum of sold data the subject will actually sell. However, the sold comps utilized seem representative of the subject's achievable value, and it seems fair to suggest that the subject's final value would fall within the overall sales range of the sold comps utilized for the report. Therefore, the subject's final projected value is bracketed based on the overall adjusted sold data. Market conditions are being impacted by the evolving covid- 19 crisis and the future in terms of how the overall market will be impacted is difficult to assess at this time. Showings, open houses etc have been restricted and this is impacting the market. However, there has been some easing in restrictions and this factor combined with very low interest rates and overall confidence in the real estate market for the long term seems to be helping to maintain confidence and momentum in the market. Sales are being reported during the current situation and overall the market seems positive when all factors are considered; the market is deemed stable at this time and demand continues unabated. Note 1; quick sale is interpreted to mean all cash sale, it is not known what incentive would be required for a cash sale; for the subject's price bracket 5 % approx is suggested, but is an estimate only, financed offers might be generated within 30 days without any incentive, based on overall market activity.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
