Comments Regarding Pricing Strategy		
<p>Values are based on most recently closed sales similar to subject and currently listed properties in direct competition with subject property. Home was priced at mid-value since there are no extraordinary characteristics that would value the subject lower or higher. Criteria expansions had to be made due to a lack of available market data. These expansions include: GLA, year built, lot size, bed/bathroom count and design/style. Comps selected for this report are all settled properties within the subject's market area. They are considered to be the best available at the time of the inspection and good indicators of market value. Comps that was slightly outside the allowable price threshold have had to be utilized. Nonetheless they bracket the subject well in regards to size, style and condition and provides an accurate evaluation.</p>		

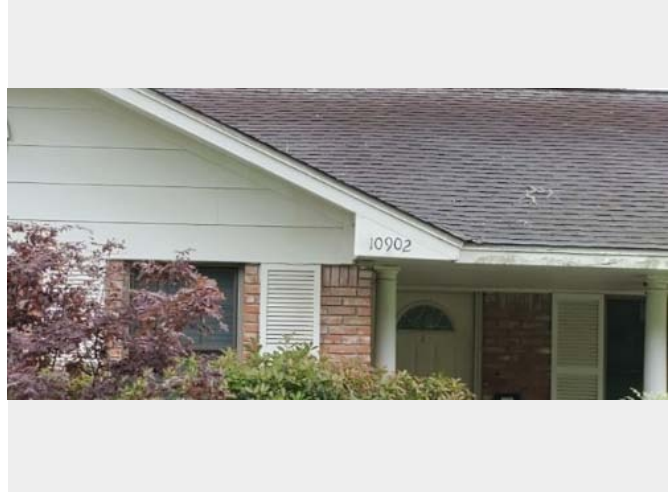

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
