Comments Regarding Pricing S	Strategy		

I researched sold and list comps in a 1 mile radius and tried to bracket GLA age and lot size. All comps chosen have the similar locational influences and would be considered to be within subjects comparative market area. Most likely buyer would be owner occupied. Lack of inventory in market area may result in lower DOM and multiple offers. It was necessary to use comps that are more than 10 years older or newer from the subject as ages vary greatly in the subject's market. The differences in age do not affect the comparability to the subject and adjustments were made to account for age variances when determining the subject's value. Due to age of subject and comps, some updates should be expected as maintenance. Comps chosen are the most mid range average comps available in subject's neighborhood. Roof looks as though it is at the end of it's life, adjustments were made to comps for that consideration. Data taken from MLS, tax records, Calif. Association of Realtors.
