Comments Regarding Pricing Strategy		
<p>Subject is a bi-level style property and due to the lack of a basement and in order to provide an accurate market value it was necessary to use sold and listed properties that are similar to the subject in bi- level style. Properties without basements are a negative for a prospective buyer that is looking for additional living space that is provided with a basement. Due to the subjects style and inferior GLA for the neighborhood it was necessary to expand search radius up to 1 mile and expand sold search date up to 6 months to find sold and listed comparable properties. Due to a severe lack of listed properties there is a high demand for available properties and majority are going under contract within a few days and selling over original list price. This has caused a 6% increase in property values in the past 12 months.</p>
