Comments Regarding Pricing Strategy				

Search had to be very expanded to find active comps. All of the sold comps are from subject tract & were weighed most heavily in establishing value. Search was expanded up to 4 miles to find other 2 active comps. The market is currently stronger & more active than has ever been seen in this area with the highest resale values also. New listings are being priced higher than the most recent closed sales & are generally selling very quickly, with multiple offers & usually over LP, in many cases with no concessions paid. A value at the higher end of the value range is well supported currently.
