<b>Comments Regarding Pricing Strategy</b>		
Final values are based on the average adjusted Sold/List prices. Home was priced at mid-value since there are no extraordinary characteristics that would value the subject lower or higher. Criteria expansions had to be made due to a lack of available market data. These expansions include: GLA, year built, lot size, bed/bathroom count and design/style. Comps selected for this report are all settled properties within the subject's market area. They are considered to be the best available at the time of the inspection and good indicators of market value.		

### Clear Capital Quality Assurance Comments Addendum

**Reviewer's** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect  
**Notes** the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
