| <b>Comments Regarding Pricing Strategy</b>   |                    |                       |
| <p>The final price point was determined by near even comparison between the current and sold listings. The price variance was relatively modest while there appears to be a stable trend in values. Due to the fact that the sold listings days on the market are within what's typical for this area, the final price will reflect a more aggressive value. The final valuation is for a fair market price set to encourage a typical marketing period for this area.</p> |                    |                       |
