Comments Regarding Pricing Strategy		
<p>L3 Correct proximity to the subject is 0.3 miles. Subject is single family detached home. The subject is estimated to be in average condition based on exterior inspection. The comps were chosen based on the following criteria - GLA, proximity and condition. Sale period, room count, age and location were also considered while choosing comps for the report. All the comps chosen are GLA range within 25% sqft, within 1 miles proximity, 6 months sales period. Due to the limited comps in the area it is necessary to use comps that are outside of the value variance. The comp is still valued correctly and is an accurate reflection of the local market value.</p>
