Comments Regarding Pricing Strategy					

#### Comments Regarding Pricing Strategy

Value conclusion is based on an almost equal weighting of both the sold and active listings. Marketing period for this area as well as the average days on the market for the comparable sold listings are within the desired time period. For this reason, the final pricing for the subject is priced more aggressively in order to encourage the desired marketing period for a fair market value as requested in this report. The sold listings selected were the most comparable in condition. Other comparable sold listings which moved off the market recently were not comparable in condition as they were either completely remodeled or recently updated that sold at a much higher value.
