#### **Comments Regarding Pricing Strategy**

I used the attached tax records for the subject's characteristics. In order to find similar comps I searched the MLS and tax records. I started with a .35 mile radius in the same zip code. I used a gla range of 864-1296 sq. ft. (20%) I used an age range of 65-121 years (30%) I looked at all one story homes that have sold in the last 3 months. The search produced 11 sales that ranged from 171,500-261,000. The comps at the high end of the range were renovated. I focused on sales that were in average condition and that had a similar annual tax rate as the subject. I used 2 non updated sales and looked back 6 months for a 3rd sale that was in average condition. \*\*Proximity and condition were a high priority in comp selection\*\* I used the same search to look for similar active listings. The search produced 7 listings in a .35 mile radius that ranged from 174,900-237,000. I used 2 listings that were non updated and a 3rd listing on the same block with some updates and adjusted the value. Value is a fair market value. Value is based on the subject being in C4/ average/ non updated condition. \*\*There is a higher tier of values for renovated homes in the area.\*\* \*\*I valued the subject in line with the current market. Homes for sale are typically receiving multiple offers and selling above list price. \*\*. I avoided using any comps with recent updates/ renovations. I adjusted any comps with recent updates. Most similar sales had been updated and were avoided.
