Sales Comparison Analysis

DESCRIPTION OF COMPARABLE SEARCH CRITERIA

All comps are from the subject's neighborhood and are recently closed. The appraiser chose the best comparables available. All comps except 3 are less than 100sf different in GLA therefore, no adjustment is warranted. In addition per online photos all comps except 3 are superior in condition/quality. Most weight is given to comp 3 for its similarity.

EXPLANATION OF ADJUSTMENTS

Amenity differences have been adjusted properly and are deemed customary for the area. Net/gross adjustments are within the standard 15%/25% guidelines. No negative external factors were noted which would negatively impact marketability. Value appears to be adequately supported.

ADDITIONAL COMMENTS (OPTIONAL)

Reconciliation Summary

After reconciliation of the supplied comparables, a value estimate of \$1,200,000 is considered reasonable as of 5/24/21. Extra ordinary assumptions were made in terms of interior condition/finishes, room count, etc. The comparables sales are acceptable and appear to be competitive in age, GLA and appeal to the subject.

Scope of Work

Provided by
Appraiser

REPORT FORMAT:

This report has been prepared under the following USPAP reporting option: Appraisal Report. The content of this Appraisal Report has been supplemented with additional information and data about the subject property and its market, as well as the data, reasoning, and analyses that were used in the valuation process. The cost approach and income approach have been omitted from this report as they are not necessary to produce credible assignment results. If the appraiser determines that credible assignment results cannot be provided without employing either the cost or income approaches to value, this assignment will be rejected by the appraiser or the scope expanded to the extent required to produce credible assignment results in compliance with USPAP. Unless otherwise stated, the appraiser has incorporated only the Sales Comparison Approach.

PURPOSE OF THE ASSIGNMENT:

The purpose of this Appraisal Report is to determine an and the opinion of the market value for the subject property, at which it could sell in a typical exposure time for the area, considering current market conditions, the condition of the subject and necessary repairs.

SCOPE OF WORK:

This Appraisal Report was performed by a Licensed or Certified Real Estate Appraiser to estimate the market value of the subject property being evaluated as of the effective date of value stated. Clear Capital has provided the appraiser with additional preliminary data resources for consideration in the analysis, which may include: Property Inspection, MLS records, and Public Records. Although the appraiser did not physically inspect the subject property, at a minimum the appraiser has considered the results of a recent visual property inspection completed by Freddie Gonzales, a licensed real estate agent having completed the above referenced Property Inspection.

AT A MINIMUM, THE APPRAISER HAS:

1. considered the additional data resources provided by Clear Capital as a resource for subject property and market data/characteristics;
2. consulted and considered supplemental market data from readily available data sources;
3. estimated the market value of the subject as of the effective date of this report restricting the desktop analysis to a sales comparison approach unless this was insufficient for credible assignment results.

THE APPRAISER HAS NOT:

1. Physically inspected the subject property or any of the comparables contained within the original report(s) or comparables presented in support of the appraiser's value opinion(s).

INTENDED USE:

The intended use of this Appraisal Report is for the lender/client to evaluate the property that is the subject of this appraisal for home equity line of credit, loan funding due diligence, loan sale, loan modification or loan securitization purposes.

INTENDED USER:

The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interest;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
