<b>Comments Regarding Pricing Strategy</b>		
<p>The subject is single family SFR Townhouse with GLA 1306, bed count 2, bath count 3 and was built in the year 1982. All maintenance appears to be up to date and no repairs are necessary based on the exterior inspection. Neighborhood appears to be in average condition when compared to other similar communities in the area. All necessary amenities and public transportation are located within close proximity to the subject. There was no functional or economic obsolescence observed. I exceeded the bed/bath count, garage/carport count and lot size due to very few comps availability. comps are taken within the proximity of 3 miles and GLA exceeded to +/-30%. The comparables are located near to the highway and it won't affect the market condition. Few comps crossed highway and railway track but they won't make any external influence with the price range in the on going market. The comps were still valued correctly and is an accurate reflection of the local market value More weight has been given to CS1 and LC2 which are similar in GLA and maintaining the overall value and structure related to the subject. Subject attributes are taken from the tax record.</p>
