Comments Regarding Pricing Strategy		
<p>The value as of today is \$298000, with typical marketing time at 90 days. The subject property is located in a neighborhood with easy access to the highway. Most yards and home exteriors appear to be in good order with only minor maintenance neglect. The area has above average market demand. Prices are rapidly increasing as the area has a shortage of homes on the market, combined with very few REO/shortsales. The subject was strategically priced mid- market because all homes were from the same/similar subdivisions, and were of similar GLA, age, style, and lot utility. No extraordinary characteristics were noted to price low or high. Criteria expansions had to be made due to a lack of available market data. These expansions include: GLA : 23; Age : -3/+4 years; Sale Dates : 5; Proximity : 2; Month Supply : 1. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was necessary to utilize comps with a variance in GLA. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was necessary to utilize comps with a variance in lot size. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was necessary to utilize comps with a variance in style. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was necessary to expand proximity guidelines. Due to the limited number of comps in the local market it was necessary to use a comparable that was slightly outside the allowable price threshold.</p>
