### Sales Comparison Analysis

#### DESCRIPTION OF COMPARABLE SEARCH CRITERIA

A search was conducted within the subject's neighborhood market for homes that offer 3-4 bedrooms, 2-3 full baths, built between 1976 and 2000 and offer GLA between 1,000 and 1,800 SF and sold within the last 90 days. A total of 62 properties were located with 22 listings (all but 6 were under contract) and with 40 closed sales.

#### EXPLANATION OF ADJUSTMENTS

Adjustments were taken at \$65 per SF for GLA differences above 50 SF, Bedrooms at \$5,000. The appraiser was unable to find any sales with similar GLA and with a 4th bedroom like the subject, thus it was necessary to offer an across the board adjustment for this factor. Due to the subject's dated condition, it was necessary to adjust for condition to all of the sales. The appraiser made an extensive search, but could not find any sales with similar dated condition. Each of the sales have higher levels of updating than the subject. Adjustments for C4 condition vs. the subject is at 2.5%, for C4 vs. C3 condition at 5% and for C2 condition 7.5%.

#### ADDITIONAL COMMENTS (OPTIONAL)

### Reconciliation Summary

After consideration for differences the adjusted sale price range fell between \$473,490 and \$498,950 with the subject's value of \$480,000 well supported by the sales. All were given consideration and weight in the final analysis.

## Appraiser Commentary Summary

### Subject Comments (Site, Condition, Quality)

From Page 1

I have not personally inspected the subject property. The scope of the inspection included an exterior only inspection of the property by a third party identified on the inspection report. The condition was determined by reviewing the observational data within the inspection report. An extraordinary assumption is made that this information is correct. The subject was viewed from the exterior only and found to be in average/livable condition with no observable deferred maintenance from the exterior. The MLS listing for the subject was viewed with interior photos showing that the subject is in average and livable condition, but is also dated. The subject offers 3 bedrooms, 2 baths and a 2 car garage.

### Neighborhood and Market

From Page 7

The subject neighborhood is located in a suburban market area and is proximate to schools, shopping, employment, parks and entertainment with easy access to local highways. The market was found to be stable with supply in shortage and marketing times under 90 days.

### Analysis of Prior Sales & Listings

From Page 6

A review of available data shows that the subject has been listed over the last 12 months, as noted above and is under contract; however, the contract has not been provided to the appraiser for review. The subject has not sold within the last 36 months.

### Highest and Best Use Additional Comments

The subject is a single family home in a residential market area with other similar homes. The highest and best use for the subject is the present use as SFR.

## Scope of Work

Provided by  
Appraiser

### REPORT FORMAT:

This report has been prepared under the following USPAP reporting option: Appraisal Report. The content of this Appraisal Report has been supplemented with additional information and data about the subject property and its market, as well as the data, reasoning, and analyses that were used in the valuation process. The cost approach and income approach have been omitted from this report as they are not necessary to produce credible assignment results. If the appraiser determines that credible assignment results cannot be provided without employing either the cost or income approaches to value, this assignment will be rejected by the appraiser or the scope expanded to the extent required to produce credible assignment results in compliance with USPAP. Unless otherwise stated, the appraiser has incorporated only the Sales Comparison Approach.

### PURPOSE OF THE ASSIGNMENT:

The purpose of this Appraisal Report is to determine an and the opinion of the market value for the subject property, at which it could sell in a typical exposure time for the area, considering current market conditions, the condition of the subject and necessary repairs.

### SCOPE OF WORK:

This Appraisal Report was performed by a Licensed or Certified Real Estate Appraiser to estimate the market value of the subject property being evaluated as of the effective date of value stated. Clear Capital has provided the appraiser with additional preliminary data resources for consideration in the analysis, which may include: Property Inspection, MLS records, and Public Records. Although the appraiser did not physically inspect the subject property, at a minimum the appraiser has considered the results of a recent visual property inspection completed by Jase Farrar, a licensed real estate agent having completed the above referenced Property Inspection.

### AT A MINIMUM, THE APPRAISER HAS:

1. considered the additional data resources provided by Clear Capital as a resource for subject property and market data/characteristics;
2. consulted and considered supplemental market data from readily available data sources;
3. estimated the market value of the subject as of the effective date of this report restricting the desktop analysis to a sales comparison approach unless this was insufficient for credible assignment results.

### THE APPRAISER HAS NOT:

1. Physically inspected the subject property or any of the comparables contained within the original report(s) or comparables presented in support of the appraiser's value opinion(s).

### INTENDED USE:

The intended use of this Appraisal Report is for the lender/client to evaluate the property that is the subject of this appraisal for home equity line of credit, loan funding due diligence, loan sale, loan modification or loan securitization purposes.

### INTENDED USER:

The intended user of this appraisal report is the lender/client.

### DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interest;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
