Comments Regarding Pricing Strategy		
<p>Subject property should be priced near mid range of competing listings due to oversupply of competing listings but low days on market time. It would be expected to sell near mid range of adjusted recently closed sales with 90 days on market. This property is currently listed for sale for \$499,900 which appears to be within fair market range as supported by currently listed competing properties and recently closed competing sales. Declining sales prices within the past 90 days and oversupply of competing properties.</p>
