Comments Regarding Pricing Strategy		
The final price conclusion is based on an analysis of the characteristics and sale/list prices of the most comparable properties found within the subject's market area. Sale prices were the most heavily weighted factors. Due to a current low inventory condition, these are the best comps available at this time.		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes	The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
