Comments Regarding Pricing Strategy		
The final price point was determined by near even comparison between the current and sold listings. The variance in values was relatively modest while there appears to be a slight upward trend. Due to the fact that values are improving and most of the sold listings days on the market are within what is typical for this area, the final valuation will reflect a more aggressive value. The final valuation is for a fair market value set to encourage the requested marketing period for this area.
