<b>Comments Regarding Pricing Strategy</b>		
Subject final values represents a value with normal marketing time and based on adjustments of most similar and proximate comps in this report. They are the best indicators of value available. Valuation : The valuation was conducted using the sales comparison approach (GLA and room counts were used as the predominant factors in determining best matching sold and listed comparable). Due to the lack of more suitable comparisons, it was necessary to exceed GLA, Lot size, Age, Style and other recommended guidelines when choosing comparable properties.		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The value variance is due to a -.9% market decrease over the last 6 months. The current report has included the most current and most proximate data available to support the price conclusion. The broker's comps are appropriate for the subject's attributes, surrounding amenities and market conditions. Thus, the price conclusion appears to be adequately supported.
