Comments Regarding Pricing Strategy		
<p>Subject's Pricing: The value variance between comps is larger than typical, but was necessary due to limited similar comps in this area. The subject's price has been bracketed within the range of comp values with the most weight placed on Sale 3 because of its similar attributes to the subject. The subject property is a single family home, which is in overall average condition on the exterior. The subject's location was confirmed via Parcel Map. The distance searched for similar comps was 1 Mile and the time searched was 12 Months time. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for comps was +/- 20% of the subject's GLA. The subject is in average exterior condition and emphasis was placed on using comps which were also in average condition. There are limited comps which support the subject's GLA and other attributes, and it was necessary to use one superior condition comp within this report. This factor was considered and the superior condition comp received the least weight on the subject's final price. Market conditions and property values are improving within this area due to very strong demand and limited inventory of homes for sale.</p>
