<b>Comments Regarding Pricing Strategy</b>		
<p>Subject's Pricing: The value variance between comps is larger than typical, but was necessary due to limited similar comps in this area. The subject's price has been bracketed within the range of comp values with the most weight placed on Sale 1, due to its similar attributes. Sold Comps 1 and 2 were adjusted for their Time Since Sale, since they closed sale over 3 months back. Comps within the subject's market area support a price which is slightly higher than the subject's recent sales price. The subject property is a single family home, which is in overall average condition on the exterior. The exterior of the subject property does not appear to be in need of major repairs. Comps were searched for within a distance of 2 Miles and back 6 months in time. Listing comps were searched for beyond 1 Mile as there is a shortage of GLA similar listing comps under 1 Mile from the subject property. Comps were selected from similar and competing areas. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for similar comps was +/- 20% of the subject's Sq. Ft. The subject is in average exterior condition and priority was given to locating comps which are in average condition. However, there is a shortage of similar comps, especially properties in average condition, and therefore it was necessary to use two superior condition comps within this report. Market conditions and home prices are increasing within this area due to continued strong demand and limited inventory of homes for sale. The subject property did not appear to have any major negative site influences. The subject's lot size could not be bracketed by the comps. However, the comps are very similar in lot size to the subject, and the sold comps were adjusted for this difference. The subject's recent MLS Listing indicates that the subject may be missing a stove and refrigerator. The interior was not inspected for this report, and the exterior is in average condition. A future interior inspection is recommended to determine if the interior needs repairs. All comps used in this report are a similar style to the subject property.</p>		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
