<b>Comments Regarding Pricing Strategy</b>		
<p>Due to low inventory and high buyer demand the subject should be priced in the upper range of the adjusted sale comps. In order to sell as quickly as possible should price the subject at the average of the adjusted sale comps. Most of the subject's value should be weighted towards the sale comps. Currently there are listings pricing their homes way over market due to market being unbalanced. Because most buyers are getting loans in the area need to price with in sale comps to avoid appraisal issues while in escrow. Although some buyers are agreeing to pay over appraised value if appraisal comes in under purchase contract price.</p>		

### Clear Capital Quality Assurance Comments Addendum
