<p>Market activity has been picking up in this area. There are currently minimal regular sales on the market and several short sales. Buyers consist of both investors and retail buyers. Resale in this area has been strong. Homes are generally moved to pending within several weeks of listing. Currently the market is picking up and multiple offers are becoming common. Pricing based on a comparison to sale comp 2 of similar size, condition and location. Subject has no listing or transfer activity since its last sale. Subject should be marketed in as-is condition, the market has both retail and investor buyers.</p>
