Comments Regarding Pricing Strategy

The subject property is a single family home, which is in overall average condition on the exterior. The exterior of the subject property does not appear to be in need of major repairs. Comps were searched for within a distance of 1 Mile and back 6 months in time. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for similar comps was +/- 20% of the subject's Sq. Ft. The subject is in average exterior condition and priority was given to locating comps which are in average condition. However, there is a shortage of similar comps, espcially properties in average condition, and therefore it was necessary to use two superior condition comps within this report. Market conditions and home prices are increasing within this area due to continued strong demand and limited inventory of homes for sale. It was necessary to use some comps differing in property style, but similar in other attributes, due to limited two story comps similar in condition within this area. Comps within the subject's market area support a price which is slightly higher than the subject's recent sales price. The subject backs to an agricultural facility, which will not negatively impact the subject's marketabilty.
