Comments Regarding Pricing Strategy		
<p>Address Verification: The subject did not have the house numbers visible. Therefore, a photo of the subject's street sign has been provided as address verification with this report. The subject was located using a parcel map. The subject property is a single family home, which is in overall average condition on the exterior. The exterior of the subject property does not appear to be in need of major repairs. Comps were searched for within a distance of 1 Mile and back 6 months in time. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for similar comps was +/- 20% of the subject's Sq. Ft. The subject is in average exterior condition and priority was given to locating comps which are in average condition. However, there is a shortage of similar comps, especially properties in average condition, and therefore it was necessary to use two superior condition comps within this report. Market conditions and home prices are increasing within this area due to continued strong demand and limited inventory of homes for sale. Comps within the subject's market area support a price which is slightly higher than the subject's recent sales price. The subject property does not appear to have any major negative site influences. The subject's price has been bracketed within the range of comp values with the most weight placed on Sale 2 due to its similar attributes.</p>
