 $\textbf{Listing Comments} \ \ \text{Why the comparable listing is superior or inferior to the subject.}$

- **Listing 1** Both condition and overall quality of construction seem average for the area and comparable to the subject, but the market is sale driven, sold comps are the focus in establishing value. Under contract/pending sale without reductions and within overall area marketing times (90 days or less is deemed adequate to generate accepted offer for subject's area and price range, or price reduction probably needed).
- **Listing 2** Condition seems average and comparable to the subject, overall quality of construction seems average and comparable to the subject. Under contract/pending sale without reductions and within overall area marketing times.
- **Listing 3** Remodeled throughout prior to sale, condition deemed good; subject assumed and appears average from exterior. Under contract/pending sale without reductions and within overall area marketing times.

Reasons for Adjustments Why the comparable sale is superior or inferior to the subject.

- **Sold 1** Seems average in overall condition and quality of construction, seems comparable to the subject. Sold conventional financing without reductions, sold over listing price (not uncommon, driven by lack of inventory and interest rates low, which favors the subject and the market does not seem to be weakening at this time, demand continues unabated). +11700 GLA.

Comments Regarding Pricing S	Comments Regarding Pricing Strategy				

Available inventory remains limited and interest rates very low; these factors are driving and sustaining demand. The market is sale driven, and the sold comps are used to establish the subject value; sold comps were considered up to 1 year back due to proximity concerns (the market has not been rapidly changing). The subject seems similar to all the sold comps in the report in combined characteristics, but it is not known exactly where on the spectrum of sold data the subject will actually sell. However, the sold comps utilized seem representative of the subject's achievable value, and it seems fair to suggest that the subject's final value would fall within the overall sales range of the sold comps utilized for the report. Therefore, the subject's final projected value is bracketed based on the overall adjusted sold data. Note 1; quick sale is interpreted to mean all cash sale, it is not known what incentive would be required for a cash sale; for the subject's price bracket 5 % approx is suggested, but is an estimate only, financed offers might be generated within 30 days without any incentive, based on overall market activity.
