Comments Regarding Pricing Strategy		
Searched for properties similar to subject in age, condition, beds, baths, and square footage. Keeping proximity heavily weighted criteria. Based value on subject in average condition as a fair market property to sell in a normal marketing period. As Is with no seller concessions. Based value on active and solds and adjusted for differences. Took active and solds into consideration for final value conclusion. Due to the limited inventory similar to subject property expanded distance 2 miles for AC3. Expanded age for SC1 and SC3. These are currently the best comps available for subject property and the adjustments are sufficient to account for differences.
