Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion is supported by the comparable data. It is noted that the current conclusion is higher than the prior report, however the current broker provides AVERAGE market sales whereas the previous broker placed primary reliance on distressed comps to derive the subject's as-is conclusion. The current comp selection has been deemed an appropriate reflection of current market conditions. Therefore, the reviewer concurs with the current as-is conclusion.
