Comments Regarding Pricing Strategy		
<p>Price and marketing strategy is based on an active local Real Estate market and a long period slow increases in values. There is currently a shortage of available active properties. The local Real Estate market appears to be improving and we have some new housing startups in the local area and Inland Empire region. Subject property and neighborhood are not affected by any local disaster. Market and values are stable with a shortage of available property on the market. Search criteria had to be expanded due to a shortage of active properties.</p>
