<b>Comments Regarding Pricing Strategy</b>		
<p>Subject bed/bath count are estimated since details are not available in the tax record. Within 1 mile, +/-20% GLA, +/-20 year built guidelines and 12 months back, there were limited comparables available. Therefore, it was necessary to exceed proximity up to 25 miles, condition, lot size, closed date, year built and GLA guidelines. Due to the lack of comparables that fell within the subject's bracketed square footage, it was necessary to search further back than three months up to twelve months (but used due to stable market conditions). Since there were limited comparables available, it was necessary to use comparables with wider price range (exceeds over 20%). The value and marketability will not be affected with the subject being located near main road and commercial buildings. In delivering final valuation, most weight has been placed on CS2 and LC1, as they are most similar to subject condition and overall structure. Subject attributes are from Tax record.</p>
