Neighborhood Comments

South side of Hwy 4. Detached single-family homes. Established neighborhood. No obsolescence. No industrial or commercial in area with negative impact. No environmental factors. Local economic conditions are stable/improving. Population change is stable. Close to schools, park, shopping and freeway. Not a distress driven market. Market conditions are changing after a year of remarkable appreciation and historic low inventory. Since September (2020), remarkable continuation of appreciation with values spiking 20%+ due to historic low inventory (50-60% below normal levels) and interest rates. Comparable sales are very limited due to the low inventory over last year. Median price for this county is up over 20% in just one year. Appreciation seems to have flattened at the moment and DOM are increasing, becoming more normalized. Still, sold comparables will be minimal due to low amount of inventory over the last 12 months.

Comments Regarding Pricing Strategy

Valuation of subject is at average condition but low end of value. Subjects value is assuming little to no updating. Very hard to find any actives/solds in this community under \$400K. SC2 is most weighted for this report. Subject and comparables are some of the smallest floorplans in Antioch and most affordable. Most important criteria for valuing subject is first location. Making sure I understand the pros/cons of the neighborhood and any impact on value. Neighborhood information takes more time than ever due to lack of neighborhood comparables, some cases no comparables in direct subdivision over last 6-9 months. Extensive review of subject's tax information and any mls history for information about the subject. Then GLA, condition, lot size and amenities. With low inventory over last few years, very limited comparables. Necessary to find comparables, at least one in the same neighborhood even having to go back no more than 9 months due to considerable appreciation after July of 2020. The value for this report is fair market value. Arrived at valuation by using the most recent similar comparables and careful not to use distress sale (REO and Short Sale) comparables. Not a distress driven market. Every attempt made to use the most recent and closest available comparables. Very extensive review of ALL comparables in subject's neighborhood and similar surrounding neighborhoods. Cannot emphasize the extraordinary market conditions with rapid appreciation with low inventory. My value for this report is conservative and relies on my market/community real estate knowledge. I very much understand using comparables that are similar age, GLA, condition, etc. However, due to low inventory and lack of comparables, variances may have to be expanded. Very recent sales and active listings most accurately reflect today's market value. It's hard to use any comparables from 2020 due to the significant appreciation. Very careful in comparable selection at this time due to limited inventory. Subject is bracketed with inferior and superior properties giving a value range.
