| <p>The subject is a SFR built in 2000 contains 4 beds and 2.5 baths, subject details taken from Tax Record. Subject in an average condition. Comparable condition verified from MLS comment and picture. The subject is located next to highway, river, park, commercial area, schools, worship center, retail amenities and other facilities Due to lack of comparables within subject same side it was necessary to cross major boundaries such as major roads, and river, which won't affect it's marketability. The subject is unique in its bedroom count and lot size to the neighborhood, hence comparables with inferior bedroom count and superior lot size are used in the report. To stay within the proximity style, half bath count, garage count were exceeded. In delivering final valuation, most weight has been placed on CS1 and CL2 as they are most similar to subject condition and overall structure. Market value is based upon current market conditions, days on market, location, property condition, and comparable available at the time of evaluation. Date of sale and days on market were given weight and consideration when arriving at market value.</p> |             |                |
