Comments Regarding Pricing Strategy		
<p>The subject is a condo town home built in 1986 contains 2 beds and 1 baths, subject details taken from Tax. Subject in an average condition. Comparable condition verified from MLS comment and picture. The subject is pending for \$117000. The subject is located next to highway, river, park, commercial area, schools, worship center, retail amenities and other facilities. Due to lack of comparables within subject same side it was necessary to cross major boundaries such as major roads, highway, and river, which won't affect it's marketability. Within 1 mile +/-30% gla, there were only limited listings available, hence proximity was exceeded up to 4 miles. The subject is unique in its bath count to the neighborhood, hence comparables with superior bath count are used in the report. To locate comparable which is similar to subject attributes age over 10yrs, bed/half bath count, and sold date 3-6 months were exceeded. In delivering final valuation, most weight has been placed on CS2 and CL2 as they are most similar to subject condition and overall structure. Market value is based upon current market conditions, days on market, location, property condition, and comparable available at the time of evaluation. Date of sale and days on market were given weight and consideration when arriving at market value.</p>
