Comments Regarding Pricing Strategy		
<p>Typical utility easements should not adversely affect the marketability. No encroachments or adverse conditions were noted. Site is typical of block and subdivision. Market is tending toward increasing property values. Perimeter guidelines had to be extended to find suitable comps. No value was gained or lost in doing so. There is a heavy under supply of comps in area. I stand by opinion of value and comps selected. Comps selected depict current market trends. Rear photo of subject is unavailable due to typical neighborhood. All comps used are considered same market areas and would appeal to the same buyer. Expanded GLA to 20%, increased age variance, proximity to 2 miles radius, no value lost or gained in doing so. Adjustments were made for sqft and year built, condition, and lot size.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
